Accreditation

Institutional Accreditation

The University of Alaska Anchorage has been accredited by the Northwest Commission on Colleges and Universities (NWCCU) since 1974. This single accreditation status applies to all UAA campuses, including Anchorage, Kenai Peninsula College, Kodiak College, Matanuska-Susitna College and Prince William Sound College.

Accreditation of an institution of higher education by the NWCCU indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the NWCCU is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution’s accredited status by the NWCCU should be directed to the administrative staff of the institution. For more information, see the Office of Academic Affairs website (https://www.uaa.alaska.edu/academics/office-of-academic-affairs/institutional-accreditation/index.cshtml/) or call (907) 786-1054.

Program Accreditation

When available, individual academic programs often seek verification that their program of study and student outcomes meet national standards established by independent associations or governmental agencies. That verification is documented as a program accreditation, also known as specialized accreditation. Students who complete an accredited curriculum enjoy additional confidence that experts in that field have evaluated the program and testified to its quality. Program accreditation may also enable students to more easily obtain professional certifications or registration.

The following programs have approval and/or accreditation from agencies external to UAA.

Art
Bachelor of Arts in Art; Bachelor of Fine Arts in Art National Association of Schools of Art and Design (NASAD)

Automotive and Diesel Technology
Undergraduate Certificate in Automotive Technology; Associate of Applied Science in Automotive Technology with options in general automotive and General Motors ASEP; Undergraduate Certificate in Diesel Power Technology; Associate of Applied Science in Diesel Power Technology

Business Administration
Bachelors of Business Administration in Accounting, Business and Data Analytics, Economics, Finance, Global Logistics and Supply Chain Management, Management, Management Information Systems, and Marketing; Bachelor of Arts in Economics; Master of Business Administration in General Management; Master of Science in Global Supply Chain Management

Civil Engineering
Bachelor of Science in Civil Engineering Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org)

Clinical-Community Psychology
Doctor of Philosophy in Clinical-Community Psychology American Psychological Association (APA)

Computer Science
Bachelor of Science in Computer Science Computing Accreditation Commission of ABET, www.abet.org (http://www.abet.org)

Computer Systems Engineering
Bachelor of Science in Computer Systems Engineering Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org)

Construction Management
Associate of Applied Science in Construction Management; Bachelor of Science in Construction Management American Council for Construction Education (ACCE)
