

Master of Science in Dietetics and Nutrition

Upon completion of MS Dietetics and Nutrition the graduate will be able to:

1. Apply foundational sciences to food and nutrition knowledge to meet the needs of individuals, groups and organizations.
2. Apply and integrate client/patient-centered principles and competent nutrition and dietetics practice to ensure positive outcomes.
3. Apply food systems principles and management skills to ensure safe and efficient delivery of food and water.
4. Apply community and population nutrition health theories when providing support to community or population nutrition programs.
5. Demonstrate leadership, business and management principles to guide practice and achieve operational goals.
6. Integrate evidence-informed practice, research principles, and critical thinking into practice.
7. Demonstrate professional behaviors and effective communication in all nutrition and dietetics interactions.
