

Master of Science in Dietetics and Nutrition

Program Student Learning Outcomes

Students graduating with a Master of Science in Dietetics and Nutrition will be able to:

- Apply foundational sciences to food and nutrition knowledge to meet the needs of individuals, groups and organizations.
- Apply and integrate client/patient-centered principles and competent nutrition and dietetics practice to ensure positive outcomes.
- Apply food systems principles and management skills to ensure safe and efficient delivery of food and water.
- Apply community and population nutrition health theories when providing support to community or population nutrition programs.
- Demonstrate leadership, business and management principles to guide practice and achieve operational goals.
- Integrate evidence-informed practice, research principles, and critical thinking into practice.
- Demonstrate professional behaviors and effective communication in all nutrition and dietetics interactions.
