Master of Science in Nursing Science

Program Student Learning Outcomes

The graduate is prepared to:

1. Engage in scholarly inquiry, including evaluation and application of evidence-based research to advanced nursing practice or leadership.
2. Practice in a manner that incorporates ethical, legal, and professional standards for advanced nursing practice or nursing leadership.
3. Collaborate across disciplines and in partnership with communities, groups, families and individuals through culturally sensitive practice.
4. Demonstrate competence and caring in the professional nurse role to serve as a provider, leader, and educator in the health care system.
5. Articulate a plan for self-directed, lifelong learning and professional development.
