

Care Team

The Care Team provides support to students who may be at risk or in distress, such as students who lose a loved one, feel depressed or anxious, or act in an unusual or concerning manner to others. The Care Team assesses students' needs and links them to services to provide support. The Care Team also helps students navigate University processes and procedures such as how to request a retroactive withdrawal or how to dispute a final grade. If you are concerned about a student, then make a report with the Anchorage campus Care Team or the Student Services director on your campus. Students can also self-refer to the Care Team.

For more information, visit the Care Team website. (<https://www.uaa.alaska.edu/students/care-team/>)
