

Emergency Preparedness

Should there be an immediate threat to the health or safety of the campus community, UAA will issue an alert to students and staff through the Incident Management Team on your campus. This notification may occur via text message, telephone, email, website updates, and/or UAA social media. Students and employees can customize how the University contacts them by updating their profile information and adding a text and mobile phone number at:

<http://UAAAlert.alaska.edu> (<http://uaalert.alaska.edu>)

To see a copy of UAA's emergency procedures for different types of scenarios, such as earthquakes, active shooters, or volcanic ash fall, click on UAA Emergency Operations Plan at:
