Alcohol Policy

General Statement

The University is concerned about ways in which alcohol use and abuse may affect the primary academic mission of the institution, its overall atmosphere and the personal well-being of University community members. Most events and activities supported and hosted at the University of Alaska are alcohol free. However, there are a limited number of locations, events, and activities where alcohol may be appropriately served in modest quantities within a controlled environment.

The primary objectives of the University’s policies and procedures on alcoholic beverages are:

1. to promote public safety on campuses and at University-sponsored events;
2. to promote responsible behavior and attitudes among all members of the University community;
3. to encourage educated decision making by University employees regarding the service and use of alcohol; and
4. to maintain a healthy atmosphere on campus.

Applicability

This policy covers the consumption of alcoholic beverages by any individual on University lands, at University facilities, and at all University events held both on and off campus. This policy also provides guidelines for the possession and consumption of alcohol by students and employees during University-related travel.

Alcohol Use, Service, and Possession

Unless expressly permitted, consumption of beer, wine or other alcoholic beverages is prohibited. Individuals may not be intoxicated to the extent that they are unable to exercise care for their own health or safety. The possession of alcoholic beverages by individuals under the age of 21 is expressly prohibited. The Chancellor, Vice Chancellor for Student Affairs, Dean of Students, College Directors, and Community Campus Directors have the authority to approve events and locations where alcoholic beverages may be served to individuals of legal age.

The University of Alaska Anchorage complies fully with federal, state, and local laws regarding the possession, sale, and consumption of alcoholic beverages. Individuals who violate this policy are subject to disciplinary action as well as local, state, and federal legal penalties. This policy is supported by the UAA Student Code of Conduct with application to both students and student organizations, in addition to human resources policies with regards to employees.

Individuals who choose to drink should understand the risks associated with doing so, including short and long-term health risks, and increased risk for motor vehicle crashes, violence, and sexual risk behaviors. In order to reduce the risks and harms associated with alcohol consumption individuals should consume alcohol in moderation.

Moderation is defined as no more than 1 drink per hour and a maximum of 3 standard drinks on a single occasion. A standard drink of alcohol is 12 oz of beer (approximately 5% alcohol by volume), 5 oz of wine (approximately 12% alcohol by volume), or 1.5 oz of liquor (approximately 40% alcohol by volume). Individuals should always designate a sober driver, consume food before or during drinking, and also drink non-alcoholic beverages. Driving under the influence is strictly prohibited.

Display of Alcohol Containers

Display of alcoholic beverages are prohibited except during designated times and at locations where service of alcoholic beverages has been approved. Displays of empty alcohol containers are also prohibited unless they are being used for an academic reason, such as an educational program, a classroom demonstration, or an art project.
