

General Education Requirements (GERs) for Baccalaureate Degrees

General Education Requirements (GERs) provide students with a common educational experience in order to provide a foundation for further study and broaden the educational experience of every degree-seeking student. They are designed to promote an elevation of the student's level in basic college-level skills (Tier 1), a breadth of exposure to traditional academic disciplines (Tier 2), and an understanding of how to integrate and apply knowledge to an evolving world (Tier 3).

UAA's General Education Values

Develop intellectual and practical skills across the curriculum, including inquiry and analysis, quantitative literacy, critical and creative thinking, problem solving, written and oral communication, information literacy, and collaborative learning.

Build knowledge of human institutions, socio-cultural processes, and the physical and natural world through study of the natural and social sciences, mathematics, humanities, and the arts.

Acquire tools for effective civic engagement in local through global contexts, including ethical reasoning and intercultural competence, with particular emphasis on Alaska and the circumpolar north.

Integrate and apply learning, including ability to synthesize knowledge and skills across general and specialized studies, adapting them to new settings, questions, and responsibilities, and forming a foundation for lifelong learning.

GER Student Learning Outcomes

After completing the GERs, UAA students shall be able to:

- Communicate effectively in a variety of contexts and formats.
- Reason mathematically and analyze quantitative and qualitative data competently to reach sound conclusions.
- Relate knowledge to the historical context in which it developed and the human problems it addresses.
- Interpret different systems of aesthetic representation and understand their historical and cultural contexts.
- Investigate the complexity of human institutions and behavior to better understand interpersonal, group and cultural dynamics.
- Identify ways in which science has advanced the understanding of important natural processes.
- Locate and use relevant information to make appropriate personal and professional decisions.
- Adopt critical perspectives for understanding the forces of globalization and diversity.

- Integrate knowledge and employ skills gained to synthesize creative thinking, critical judgment and personal experience in a meaningful and coherent manner.

Category	Description	Credits
Tier 1	Basic College-Level Skills	12
Tier 2	Disciplinary Areas	22
Tier 3	Integrative Capstone	3
Total		37

All students should consult a faculty or academic advisor for appropriate course selections.

- Baccalaureate students are required to complete 12 credits of basic college-level skills (oral, written and quantitative) before completing 60 total degree-applicable credits.
- Each of the eight GER classifications has a list of approved courses (see the General Education Requirements classification lists). Only courses from the GER classification list may be used to satisfy a distribution area requirement.
- Courses used to satisfy distribution area requirements in General Education may also be used to satisfy school/college requirements and/or degree/program requirements, but no course may be counted in more than one GER category.
- Courses ending with numbers _93 or _94 cannot satisfy a GER, and UAA courses not on the approved GER classification list cannot be petitioned to meet a GER.

Petitions for GERs and/or General University Requirements

Petitions pertaining to GERs and/or General University Requirements must be processed through the Office of Academic Affairs, with final authority to deny or approve resting with the provost. After the petition has received final approval or denial, the student is notified of the decision. Changes in course level, grading or number of credits awarded are not petitionable. UAA courses not on the approved baccalaureate GER lists cannot be petitioned to meet a GER. For more information, see the Academic Petition (<http://catalog.uaa.alaska.edu/academicpoliciesprocesses/academicstandardsregulations/academicpetition/>) section.

GER Classification List

Courses listed as satisfying a GER are also identified in the course descriptions (<http://catalog.uaa.alaska.edu/coursedescriptions/>). A course satisfying a particular GER in the semester in which it was completed will continue to satisfy that GER for that student even if its status has changed in the catalog under which the student graduates.

Students who wish to use a UAF or UAS course to meet a UAA GER should refer to the table of substitutions below.

UAA Table of GER Substitutions

This table is intended to assist UAA students who wish to use UAF or UAS courses to meet a UAA GER per Board of Regents Policy P10.04.062.

Category	Credits
Oral Communication Skills	3
Quantitative Skills	3
Written Communication Skills	6
Total	12

Oral Communication Skills

Oral communication skills courses increase the abilities of students to interact appropriately and effectively in a variety of contexts, including interpersonal, small group and public speaking settings.

- Students develop both their message creation and message interpretation skills in order to be more successful communicators.
- Students develop an awareness of the role of communication in a variety of human relationships—personal and professional.
- Students develop and implement effective and appropriate communication skills, including the ability to develop, organize, present and critically evaluate messages.
- Students analyze audiences and adapt to a variety of in-person communication settings.

Courses completed at UAA must be selected from the following Oral Communication courses:

Code	Title	Credits
Complete 3 credits of the following:		
COMM A111	Fundamentals of Oral Communication	3
COMM A235	Small Group Communication	3
COMM A237	Interpersonal Communication	3
COMM A241	Public Speaking	3

Quantitative Skills

Quantitative skills courses increase mathematical abilities.

- Students become more adept and competent producers and wiser consumers of the mathematical, statistical and computational analyses which dominate 21st-century decision-making.
- Students develop their algebraic, analytic and numeric skills; use them to solve applied problems; and correctly explain their mathematical reasoning.

Courses completed at UAA must be selected from the following Quantitative Skills courses¹:

Code	Title	Credits
Complete 3 credits of the following:		
MATH A104	Technical Mathematics	3
MATH A113	Numbers and Society	3
MATH A115	Art of Mathematics	3

Tier 1: Basic College-Level Skills

The UAA GERs begin with basic college-level skills enhancement in oral communication, quantitative, and written communication skills:

- Courses in oral and written communication develop intellectual and practical skills, building critical reading, thinking, and communication competencies (listening, speaking, reading, and writing) necessary to communicate effectively in a variety of contexts and formats needed for personal and professional success.
- Quantitative courses develop abilities to reason mathematically and analyze quantitative and qualitative data to reach sound conclusions for success in undergraduate study and professional life.
- Baccalaureate students are required to complete the 12 credits of basic college-level skills (oral, written and quantitative) before completing 60 total degree applicable credits. Students may select approved basic college-level skills, which may also fulfill requirements in their intended major. Faculty in English, communications and mathematics provide placement criteria (which may require the completion of preparatory coursework).

Tier 1 GERs require appropriate placement scores for course registration. Refer to the Course Placement (<http://>

MATH A121	College Algebra for Managerial and Social Sciences	3
MATH A151	College Algebra for Calculus	4
MATH A152	Trigonometry	3
MATH A155	Precalculus	5
MATH A221	Applied Calculus for Managerial and Social Sciences	3
MATH A251	Calculus I	4
MATH A252	Calculus II	4
MATH A253	Calculus III	4
STAT A200	Elementary Statistics	3
STAT A253	Applied Statistics for the Sciences	4

¹ To determine the appropriate quantitative skills course, students must work with their academic advisor, as degree pathways differ. A minimum grade of C or higher may be required to fulfill prerequisites for the next MATH or STAT course in sequence or a degree requirement.

Written Communication Skills

Written communication courses emphasize that writing is a recursive and frequently collaborative process of invention, drafting and revising as well as a primary element of active learning in literate cultures.

- Students practice methods for establishing credibility, reasoning critically and appealing to the emotions and values of their audience.
- Students write for a variety of purposes and audiences by employing methods of rhetorical and cultural analysis.
- Students develop the tools to read, think and write analytically about print and nonprint texts and to generate texts that engage their own perceptions while synthesizing the ideas of texts and scholars. Students demonstrate their ability to communicate effectively by selecting form and content that fits the situation; adhering to genre conventions; adapting their voice, tone, and level of formality to that situation; and controlling stylistic features such as sentence variety, syntax, grammar, usage, punctuation and spelling.

Courses completed at UAA must be selected from the following Written Communication courses:

Code	Title	Credits
Complete 6 credits of the following:		
WRTG A111	Writing Across Contexts	3
WRTG A211	Writing and the Humanities	3
WRTG A212	Writing and the Professions	3
WRTG A213	Writing and the Sciences	3
WRTG A214	Arguing Across Contexts	3

Tier 2: Disciplinary Areas

Courses in this tier examine Fine Arts, Humanities, Natural Sciences, and Social Sciences which provide a breadth of academic experience

regarding human institutions, artistic and socio-cultural processes, and the physical and natural world.

- Courses in the Fine Arts interpret different systems of aesthetic representation within their historical and cultural contexts.
- Courses in the Humanities investigate the cultural, historical, literary, aesthetic, ethical and spiritual traditions that have shaped and continue to shape our worlds.
- Courses in Natural Sciences identify theoretical and descriptive approaches in which science advances the understanding of the natural and physical world. Lab courses in the Natural Sciences emphasize gathering data and analyzing hypotheses according to the scientific method.
- Courses in the Social Sciences explore the complexity of human behavior via empirical methodologies to better understand interpersonal, institutional, and cultural dynamics.

Code	Title	Credits
Fine Arts		3
Humanities		6
Natural Sciences		7
Social Sciences		6
Total		22

Fine Arts

The fine arts (i.e. visual and performing) arts focus on the historical, aesthetic, critical and creative approaches to understanding the context and production of art as academic and creative disciplines as opposed to those that emphasize acquisition of skills.

- Students who complete the fine arts requirement should be able to identify and describe works of art by reference to media employed, historical context and style, and structural principles of design and composition.
- Students should be able to interpret the meaning or intent of works of art and assess their stylistic and cultural importance by reference to their historical significance, their relationship to earlier works and artists, and their overall impact of subsequent artistic work.

Courses completed at UAA must be selected from the following Fine Arts courses:

Code	Title	Credits
Complete 3 credits of the following:		
AKNS/MUS A215	Music of Alaska Natives and Indigenous Peoples of Northern Regions	3
AKNS/MUS A216	World Indigenous Music	3
AKNS A261	Alaska Native Art History	3
ART A160	Art Appreciation	3
ART A261	History of Western Art I	3
ART A262	History of Western Art II	3
DNCE A170	Dance Appreciation	3
MUS A121	Music Appreciation	3

MUS A221	History of Western Art Music I	3
MUS A222	History of Western Art Music II	3
MUS A224	History of Jazz	3
THR A111	Theatre Appreciation	3
THR A121	Fundamentals of Acting	3
THR A214	Historical Plays	3
THR A215	Contemporary Plays	3

Humanities

The humanities courses examine the characteristics of realities, the purpose of human existence, the properties of knowledge and the qualities of sound reasoning, eloquent communication, and creative expression, studying the problems of judicious conduct in personal, social and political life. They also consider the qualities of the divine, the sacred and the mysterious. In these tasks, the humanities courses reflect upon the world’s heritage of the arts, history, languages, literature, religion and philosophy.

- Students who complete a content-oriented course in the humanities should be able to identify texts or objects, place them in the historical context of the discipline, articulate the central problems they address and provide reasoned assessments of their significance.
- Students who complete a skills-oriented humanities course in logic should be able to identify the premises and conclusions of written arguments, evaluate their cogency, and recognize common fallacies. They should also be able to employ formal techniques to determine the validity of deductive arguments and evaluate the adequacy of evidence according to appropriate inductive standards.
- Students who complete a humanities course in a language should additionally demonstrate proficiency in listening, speaking, reading, and writing in the target language.

Courses completed at UAA must be selected from the following Humanities courses:

Natural Sciences

(must include a laboratory course)

The natural sciences focus on gaining an understanding of the matter, events and processes that form and sustain our universe. Methods of scientific inquiry are diverse, but all aim to formulate general principles that explain observations and predict future events or behaviors within their disciplines.

- Students completing their natural sciences requirement will be able to apply the scientific method by formulating questions or problems, proposing hypothetical answers or solutions, testing those hypotheses, and reaching supportable conclusions.
- Students demonstrate an understanding of the fundamentals of one or more scientific disciplines, a knowledge of the discoveries and advances made within that discipline, and the impact of scientific information in sculpting thought and in providing the foundations for the technology in use at various times in history.

Laboratory courses illustrate how scientists develop, test and challenge scientific theories, providing an appreciation for the process and problems involved in the advancement of scientific knowledge.

- Students will demonstrate the ability to work with the tools and in the settings encountered by professionals in the discipline.
- Students will critically observe materials, events or processes, and accurately record and analyze their observations.

Courses completed at UAA must be selected from the following Natural Sciences courses:

Code	Title	Credits
Complete 7 credits of the following: (must include a laboratory course)		

ANTH A205 & A205L	Biological Anthropology and Biological Anthropology Laboratory	4

Social Sciences

The social sciences constitute the various fields of study concerned with society, social interaction and human behavior. Each of the specific disciplines in the social sciences is a historically recognized area of inquiry with a scientifically grounded methodology, yet they all share the goal of understanding society, its institutions, and its people and their behavior.

- Students describe the discipline studied and discuss the key principles or themes that unify it.
- Students describe and contrast key scientific theories and theoretical approaches in a discipline and the ways in which these theories structure social scientists’ thinking and research
- Students demonstrate the ability to think critically about how society works and how social realities are created by diverse social processes and cultural practices.
- Students describe the wide range of social science data and the importance of using empiricism, both qualitative and quantitative, in making claims about the social world and in setting evidence-based social policy.
- Students explain and use basic social science methods and summarize the assumptions behind and the limitations of inductive or deductive approaches that might include the formulation of research questions and hypotheses; data collection and analysis; and testing, verifying and rejecting hypotheses.

Courses completed at UAA must be selected from the following Social Sciences courses:

Code	Title	Credits
Complete 6 credits of the following:		
ANTH A101	Introduction to Anthropology	3
ANTH A200	Alaska Native Cultures	3
ANTH A202	Cultural Anthropology	3

WSGS A200	Introduction to Women's and Gender Studies	3

Alaska Native-Themed GER

The Alaska Native-Themed GER addresses UAA's mission to serve 'the higher education needs of the state, its communities, and its diverse peoples'. It also recognizes UAA's unique location on the ancestral homelands of the Dena’ina Athabascan, Ahtna Athabascan, Alutiiq/Sugpiak, and Eyak peoples, and the 20 Alaska Native languages that are now official languages of the State of Alaska.

Students are required to complete a minimum of three credits of Alaska Native-Themed GER coursework from the following list to graduate with an Associate of Arts or a baccalaureate degree.

An AKNT course can meet other GER or program requirements. However, the same course cannot meet both the AKNT requirement and the Diversity and Inclusion requirement.

Student Learning Outcomes

After completing the Alaska Native-Themed GER, UAA students shall be able to:

- Recognize Alaska Native/Indigenous diversity by tribe, language and region.

- Identify and articulate the complexity and sophistication of Alaska Native/Indigenous knowledge systems and social institutions and the arts in historical and contemporary contexts.
- Articulate the social and legal development of Alaska Native peoples, such as ANCSA.
- Identify the historical forces of colonization and their impact upon Alaska Native regions, communities, and individuals.

Diversity & Inclusion GER

The Diversity and Inclusion GER initiative addresses UAA's mission to serve 'the higher education needs of the state, its communities, and its diverse peoples.' UAA honors diverse experiences and perspectives—including differences in ideas, religion, gender, gender identity, sexual orientation, ethnicity, race, culture, nationality, age, disability, veteran, and socioeconomic status—and strives to create welcoming and inclusive learning environments where all are treated with respect. Diversity maximizes our potential for creativity, innovation, educational excellence, and outstanding service to our communities.

Students admitted as first-time degree-seeking students beginning in Fall 2020 or later are required to complete a minimum of three credits of Diversity and Inclusion GenEd coursework from the approved list to graduate with an Associate of Arts or a baccalaureate degree.

A Diversity and Inclusion course can meet other GER or program requirements. However, the same course cannot meet both the AKNT requirement and the Diversity and Inclusion requirement.

Student Learning Outcomes

After completing the Diversity and Inclusion GER, UAA students shall be able to:

- Demonstrate an understanding of the complex elements important to their own culture and/or socially defined groups in relation to their history, values, beliefs, and/or practices.
- Analyze differences among cultures and socially-defined groups in relation to their history, values, beliefs, and/or practices.
- Evaluate power, privilege, and equity with regards to their own culture and socially defined group compared with others.
- Apply knowledge and skills from a particular academic discipline as it relates to issues of cultural specificity and diversity.

Tier 3: Integrative Capstone

Integrative Capstone courses culminate the GER experience by synthesizing material across GER domains with the blending of basic college-level skills (Tier 1) and/or disciplinary areas (Tier 2), establishing a foundation for life-long learning.

- Students completing the integrative capstone requirement demonstrate the ability to integrate knowledge and employ skills to synthesize creative thinking, critical judgment and personal experience in a meaningful and coherent manner.
- Student adopt critical perspectives for understanding the forces of globalization and diversity.

The 37-credit General Education Requirement, including the 3-credit integrative capstone, is required for graduation after September 2008 for baccalaureate students who were admitted to major or pre-major status under the 2005-2006 UAA Catalog or later catalogs. (For specifics on catalog year requirements, see Academic Standards and Regulations (<http://catalog.uaa.alaska.edu/academicpoliciesprocesses/academicstandardsregulations/>).

Courses completed at UAA must be selected from the following Integrative Capstone courses:
