- All mathematics majors must complete a portfolio demonstrating their mathematics knowledge. There is no grade for this requirement. The portfolio will normally be submitted in the semester of graduation.

A total of 120 credits is required for the degree, of which 42 credits must be upper division.

Honors in Mathematics

Students majoring in mathematics are eligible to graduate with departmental honors if they satisfy the following requirements:

1. Meet the requirements for Graduation with Honors (http://catalog.uaa.alaska.edu/academicpoliciesprocesses/academicstandardsregulations/graduation).
2. Meet the requirements for a BA/BS in Mathematics.
3. Earn a grade point average of 3.50 or above in the major requirements.
4. Complete a minimum of 12 upper-division credits required for the major in residence.
Program Student Learning Outcomes

Students graduating with a Bachelor of Arts in Mathematics will be able to:

- Demonstrate knowledge of the techniques of modern mathematical subjects including calculus, linear algebra, abstract algebra, real analysis, discrete mathematics, and probability and statistics.
- Demonstrate an ability to construct proofs and solve problems using deductive logic, data analysis, computation, modeling and connections.
- Demonstrate an ability to read, write and speak mathematics.
- Demonstrate cognizance of their mathematical knowledge, of mathematics around them, and the need for lifelong learning.
