

Bachelor of Science in Natural Sciences

The Bachelor of Science (BS) in Natural Sciences provides a broad, customizable program of studies in the sciences, with coursework across multiple disciplines. It prepares students for advanced study or careers in the environmental sciences and the health professions, and professional certifications such as science educators. Graduates of the program have gone on to further study and jobs in a diversity of fields, such as veterinary, medical, and dental schools, certification as secondary school science educators, and environmental consulting.

Admission Requirements

- Complete the Admission Requirements for Baccalaureate Programs (<http://catalog.uaa.alaska.edu/academicpoliciesprocesses/admissions/undergraduate/>).
- Declare the major (see major requirements) and select one of three options: General Sciences, Pre-health Professions or Environmental Sciences. To declare the Bachelor of Science (BS) in Natural Sciences as their major, students must meet with an advisor to be accepted into the major. To schedule an advising session, contact the Department of Biological Sciences. At the advising session students are required to:
 - Choose one of the three options.
 - File a preliminary program of study with the Department of Biological Sciences.

Graduation Requirements

- Complete the General University Requirements for Baccalaureate Degrees (<http://catalog.uaa.alaska.edu/undergraduateprograms/baccalaureaterequirements/>).
- Complete the General Education Requirements for Baccalaureate Degrees (<http://catalog.uaa.alaska.edu/undergraduateprograms/baccalaureaterequirements/gers/>).
- It is recommended that mathematical and statistical requirements be completed in the first two years of study.
- No more than 6 credits may come from courses designated as A495, A498 and A499 combined, with no more than 2 credits from A495.
- No more than 4 credits may be A492, with no more than 2 credits from the same discipline.
- Courses not listed as approved for the BS In Natural Sciences may be considered by petition, which should be signed by an advisor.
- It is strongly recommended that any changes to the preliminary program be reviewed by an advisor to ensure that the final program of study will meet all requirements for graduation.
- Students must submit a final Program of Study-Natural Sciences Degree form signed by their advisor to both the Office of the Registrar and the Department of Biological Sciences during the semester prior to the semester in which they plan to graduate. All courses listed in the form must be approved by the formal advisor before submitting the form to the Office of the Registrar and the Department of Biological Sciences.

- All prerequisites for courses used to meet the natural sciences degree requirements must be completed with a minimum grade of C. Students who audit a course intended to meet the natural sciences degree requirements or who are unable to earn a minimum grade of C in the course may repeat the course. Students who audit or are unable to earn a minimum grade of C in a lower-division (100- or 200-level) Biology (BIOL) course may repeat the course two additional times on a space-available basis. Students who audit or are unable to earn a minimum grade of C in an upper-division (300- or 400-level) BIOL course may repeat the course one additional time on a space-available basis. Students repeating a BIOL course are required to complete all components of that course during the semester in which the course is retaken. When repeating a course with a lecture and laboratory component, both components must be repeated. Students enrolled in a BIOL laboratory must attend lab the first week of class or they may be administratively dropped.
- All Natural Sciences majors are required to take an exit examination, a standardized test of knowledge. There is no minimum score required for graduation. The exam may be completed at the UAA Testing Center and a fee will be charged to students, or as part of BIOL A492.
- Complete the following major requirements with a minimum grade of C:

Environmental Sciences Option

Code	Title	Credits
BIOL A108	Principles and Methods in Biology	6
BIOL A492	Undergraduate Seminar	1
CHEM A105 & A105L	General Chemistry I and General Chemistry I Laboratory	4
CHEM A106 & A106L	General Chemistry II and General Chemistry II Laboratory	4
ENVI A211	Environmental Science: Systems and Processes	3
ENVI A212	Living on Earth: Introduction to Environmental Studies	3
GEOL A111 & A111L or GEOL A121	Physical Geology and Physical Geology Laboratory Physical Geology for Science and Engineering Majors	4
or GEOL A115 & A115L	Environmental Geology and Environmental Geology Laboratory	
GEOL A221	Historical Geology	4
Select 51 credits of degree electives, of which 31 must be upper-division credits, from the following course lists.		51

Natural and Physical Sciences

Complete a minimum of 20 credits from the following:

ASTR/BIOL A365	Astrobiology
BIOL/GEOL A178	Introduction to Oceanography
BIOL/GEOL A179	Introduction to Oceanography Laboratory

BIOL A200	Introduction to Complexity	CHEM A323L	Organic Chemistry Laboratory
BIOL A242	Fundamentals of Cell Biology	CHEM A411	Biophysical Chemistry
BIOL A243	Experiential Learning: Cell Biology and Genetics	CHEM A441	Principles of Biochemistry I
BIOL A252	Principles of Genetics	CHEM A442	Principles of Biochemistry II
BIOL A271	Principles of Ecology	CHEM A443	Biochemistry Laboratory
BIOL A273	Experiential Learning: Ecology and Evolution	CHEM A492	Undergraduate Seminar
BIOL A288	Principles of Evolution	CHEM A498	Individual Research
BIOL A310	Principles of Animal Physiology	GEOG A375	Environmental Applications of Geographic Information Systems (GIS)
BIOL A311	Experiential Learning: Animal Physiology	GEOL A225	Earth Surface Processes
BIOL A316	Principles of Plant Physiology	GEOL A310	Professional Practices in Geology
BIOL A317	Experiential Learning: Plant Physiology	GEOL A315	Geological Data Visualization and Analysis
BIOL A415	Comparative Animal Physiology	GEOL A320	Volcanology
BIOL A418	Fish Physiology	GEOL A321	Mineralogy
BIOL A423	Ichthyology	GEOL A322	Igneous and Metamorphic Petrology
BIOL A427	Marine Invertebrate Biology	GEOL A325	Geology of Ore Deposits
BIOL A430	Marine Mammal Biology	GEOL A331	Sedimentology and Stratigraphy
BIOL A431	Plant Diversity and Evolution	GEOL A332	Sedimentary Petrology Laboratory
BIOL A441	Animal Behavior	GEOL A333	Earthquakes and Seismic Hazards
BIOL A442	Experiential Learning: Animal Behavior	GEOL A345	Hydrogeology
BIOL A467	Wildlife Ecology	GEOL A350	Geomorphology
BIOL A472	Biogeography	GEOL A335	Structural Geology
BIOL A473	Conservation Biology	GEOL A361	Earth Resources and Society
BIOL/CHEM A474	Ecotoxicology	GEOL A436	Petroleum Geology
BIOL A477	Tundra and Taiga Ecosystems	GEOL A437	Depositional Systems and Dynamic Stratigraphy
BIOL A478	Biological Oceanography	GEOL A441	Paleoclimatology
BIOL A481	Marine Biology	GEOL A444	The Cryosphere
BIOL A483	Exploration Ecology	GEOL A448	Structural Geology and Geomechanics
BIOL A484	Experiential Learning: Exploration Ecology Field Study	GEOL A454	Glacial and Quaternary Geology
BIOL A486	Evolutionary Ecology	GEOL A458	Geology of Alaska
BIOL A487	Comparative Anatomy of Vertebrates	GEOL A461	Geochemistry
BIOL A489	Population Genetics and Evolutionary Processes	GEOL A463	Environmental Geochemistry
BIOL A490	Selected Lecture Topics in Biology	GEOL A465	Isotope Geochemistry
BIOL A490L	Selected Laboratory Topics in Biology	GEOL A468	Geomicrobiology
BIOL A495A	Internship in the Biological Sciences	GEOL A476	Applied Geophysics
BIOL A498	Individual Research	GEOL A477	Integrated Subsurface Mapping and Analysis
BIOL A499	Senior Thesis	GEOL A480	Geologic Field Methods
CHEM A253	Principles of Inorganic Chemistry	GEOL A481	Alaskan Field Investigations
CHEM A312	Quantitative Analysis	GEOL A482	Geologic Field Investigations
CHEM A321	Organic Chemistry I	GEOL A490	Advanced Topics in Geology
CHEM A322	Organic Chemistry II	GEOL A492	Geology Seminar
		GEOL A495	Geology Internship
		GEOL A498	Student Research

GEOL A499	Senior Thesis
MBIO A340	Microbial Biology
MBIO A342	Experiential Learning: Microbial Biology
MBIO A410	Microbial Physiology
MBIO A420	Pathogenic Microbiology
MBIO A421	Experiential Learning: Pathogenic Microbiology
MBIO A440	Microbial Diversity
MBIO A450	Microbial Ecology
MBIO A451	Microbial Biotechnology
MBIO A452	Microbial Genetics
MBIO A453	Experiential Learning: Microbial Ecology
MBIO/GEOL A468	Geomicrobiology
PHYS A123 & A123L	College Physics I and College Physics I Laboratory ¹
or PHYS A211 & A211L	General Physics I and General Physics I Laboratory
PHYS A124 & A124L	College Physics II and College Physics II Laboratory ¹
or PHYS A212 & A212L	General Physics II and General Physics II Laboratory
PHYS A303	Modern Physics

Math and Computational Skills

Complete a minimum of 15 credits from the following:

CS A109	Computer Programming (Languages Vary)
or CS A110	Java Programming
or CSCE A201	Computer Programming I
CSCE A222	Object-Oriented Programming I
CSCE A311	Data Structures and Algorithms
CSCE A351	Automata, Algorithms and Complexity
CSCE A360	Database Systems
CSCE A381	Computer Graphics
CSCE A405	Artificial Intelligence
CSCE A412	Evolutionary Computing
GEO A359	Geodesy and Map Projections
GIS A370	GIS and Remote Sensing for Natural Resources
GIS A458	Spatial Data Management
GIS A466	Spatial Analysis
GIS A467	Image Analysis
MATH A251	Calculus I
MATH A252	Calculus II
MATH A253	Calculus III
MATH A261	Introduction to Discrete Mathematics

MATH A265	Fundamentals of Mathematics
MATH A302	Ordinary Differential Equations
MATH A305	Introduction to Geometries
MATH A306	Discrete Methods
MATH A314	Linear Algebra
MATH A371	Stochastic Processes
MATH A401	Introduction to Real Analysis
MATH A405	Introduction to Abstract Algebra
MATH A407	Mathematical Statistics
MATH A410	Introduction to Complex Analysis
MATH A432	Partial Differential Equations
STAT A253 or STAT A307	Applied Statistics for the Sciences Probability and Statistics
STAT A308	Intermediate Statistics for the Sciences
STAT A402	Scientific Sampling
STAT A403	Regression Analysis
STAT A404	Analysis of Variance
STAT A407	Time Series Analysis
STAT A408	Multivariate Statistics

Social Sciences

Complete a minimum of 9 credits from the following:

ANTH A101	Introduction to Anthropology
ANTH A202	Cultural Anthropology
ANTH A205	Biological Anthropology
ANTH A415	Applied Anthropology
CEL A292	Introduction to Civic Engagement
CEL A390	Special Topics in Civic Engagement
ECON A101	Principles of Microeconomics
ECON A102	Principles of Macroeconomics
ECON A210	Environmental Economics and Policy
ECON A300	The Economy of Alaska
ECON A321	Intermediate Microeconomics
ECON A324	Intermediate Macroeconomics
ECON A435	Natural Resource Economics
ENVI A470	Environmental Planning and Problem Solving
ENVI A490	Topics in Environment and Society
GEOG/INTL A101	Local Places/Global Regions: An Introduction to Geography
PHIL A303	Environmental Ethics
SOC A101	Introduction to Sociology
SOC A404	Environmental Sociology

Total **80**

¹ *Students cannot get credit for both PHYS A123/PHYS A123L and PHYS A211/PHYS A211L or PHYS A124/PHYS A124L and PHYS A212/PHYS A212L.*

Pre-Health Professions Option

Code	Title	Credits
BIOL A108	Principles and Methods in Biology	6
BIOL A492	Undergraduate Seminar	1
CHEM A105 & A105L	General Chemistry I and General Chemistry I Laboratory	4
CHEM A106 & A106L	General Chemistry II and General Chemistry II Laboratory	4
PHYS A123 & A123L	College Physics I and College Physics I Laboratory	4
PHYS A124 & A124L	College Physics II and College Physics II Laboratory	4
Complete 57 credits of degree electives, of which a minimum of 31 must be upper-division, from the following course lists:		57

Natural Sciences

Complete a minimum of 24 credits from the following:

BIOL A111	Human Anatomy and Physiology I
BIOL A112	Human Anatomy and Physiology II
BIOL A200	Introduction to Complexity
BIOL A240	Introductory Microbiology for Health Sciences
or MBIO A340 & MBIO A342	Microbial Biology and Experiential Learning: Microbial Biology
BIOL A242	Fundamentals of Cell Biology
BIOL A243	Experiential Learning: Cell Biology and Genetics
BIOL A252	Principles of Genetics
BIOL A288	Principles of Evolution
BIOL A310	Principles of Animal Physiology
BIOL A311	Experiential Learning: Animal Physiology
BIOL A320	Vertebrate Biology
BIOL A321	Experiential Learning: Vertebrate Biology
BIOL A412	Behavioral Endocrinology
BIOL A413	Neurophysiology
BIOL A415	Comparative Animal Physiology
BIOL A417	Applied Kinesiology and Exercise Physiology
BIOL A452	Human Genome
BIOL A455	Experiential Learning: Bioinformatics
BIOL A461	Molecular Biology
BIOL A463	Molecular Biology of Cancer

BIOL A464	Metals in Biology
BIOL A465	Experiential Learning: Molecular Biology
BIOL/CHEM A471	Immunology
BIOL A487	Comparative Anatomy of Vertebrates
BIOL A489	Population Genetics and Evolutionary Processes
BIOL A490	Selected Lecture Topics in Biology
BIOL A490L	Selected Laboratory Topics in Biology
BIOL A495A	Internship in the Biological Sciences
BIOL A498	Individual Research
BIOM A418	Human Gross Anatomy
CHEM A312	Quantitative Analysis
CHEM A321	Organic Chemistry I
CHEM A322	Organic Chemistry II
CHEM A323L	Organic Chemistry Laboratory
CHEM A411	Biophysical Chemistry
CHEM A441	Principles of Biochemistry I
CHEM A442	Principles of Biochemistry II
