

# Bachelor of Science in Geomatics

The Bachelor of Science (BS) in Geomatics prepares students for a career in surveying and mapping, Geographic Information Systems (GIS), remote sensing, and related professional fields. Geomatics integrates disciplines of land surveying and mapping, geodesy, hydrography, remote sensing, photogrammetry, LiDAR/point clouds, and GIS. The Geomatics program is the only program statewide to provide the level of education required by the State of Alaska in obtaining professional land surveyor licenses.

The Bachelor of Science in Geomatics is accredited by the Applied and Natural Sciences Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org>).

## Licensure and/or Certification

Graduates of the BS in Geomatics gain four years of education credit toward obtaining a professional land surveyor license in Alaska.

This program is designed to meet the educational requirements for professional licensure or certification in the State of Alaska. However, the program might not meet the educational requirements for professional licensure or certification in other states. Please see UAA's Licensure and Certification website (<https://www.uaa.alaska.edu/academics/office-of-academic-affairs/licensure.cshml/>) for more information.

## Admission Requirements

- Complete the Admission Requirements for Baccalaureate Degrees (<http://catalog.uaa.alaska.edu/academicpoliciesprocesses/admissions/undergraduate/>).

## Special Considerations

- Students who intend to enroll in this degree of study are strongly encouraged to complete the following courses in high school with a C or better: Mathematics - Algebra and Trigonometry (2 semesters), Natural Science such as Chemistry, Physics, Biology, or Geology (1 year), English Composition - Skill level as demonstrated by ACT, SAT, or approved placement test to qualify for enrollment in WRTG A111. Insufficient preparation may increase the number of semesters required to complete the degree.
- A student who is unable to earn a minimum grade of C in a major requirement course during their initial enrollment may attempt to earn a satisfactory grade one additional time on a space-available basis. Failure to earn a minimum grade of C on the second attempt may result in removal from the geomatics program.

## Graduation Requirements

- Complete the General University Requirements for Baccalaureate Degrees (<http://catalog.uaa.alaska.edu/undergraduateprograms/baccalaureaterequirements/>).

- Complete the General Education Requirements for Baccalaureate Degrees (<http://catalog.uaa.alaska.edu/undergraduateprograms/baccalaureaterequirements/gers/>).
