

Associate of Applied Science in Diagnostic Medical Sonography

Program Student Learning Outcomes

At the completion of the diagnostic medical sonography program, students are able to:

- Apply entry-level knowledge of physics, anatomy, physiology and pathophysiology related to sonography.
- Perform general sonography with continuing competency.
- Demonstrate proficiency in patient assessment and care activities related to sonography.
- Utilize effective oral and written communication with patients, physicians and other medical personnel.
- Employ professional and ethical judgment in the performance of sonographic duties.
