Diagnostic Medical Sonography

Diagnostic Medical Sonography
Allied Health Science Building (AHS), Room 148, (907) 786-6928

Students learn anatomy, physics, equipment operation and scanning techniques to image a variety of body organs and tissues using high-frequency sound waves. The program prepares competent, entry-level general sonographers in the cognitive (knowledge), psychomotor (skills) and affective (behavior) learning domains. General sonographers work in a range of medical settings from freestanding imaging centers to medical centers.

Program of Study
Associate of Applied Science
