

Post-Baccalaureate Certificate in Speech- Language Pathology

Program Student Learning Outcomes

Students graduating with a Post-Baccalaureate Certificate in Speech Language Pathology will be able to:

- Identify anatomical structures and physiological processes that support the communication and swallowing processes.
- Describe the role of the systems of respiration, phonation, and articulation/resonance in the production of a spoken word.
- Identify milestones in normal speech and language development.
- Identify common disorders that affect the ability to communicate.
- Discuss the impact of culturally and linguistically diverse backgrounds on speech and language development and determination of speech or language difference vs. disorder.
